- Removable dock
- Vehicle installations
- Serial interface options
- Camera-hub support

The CRD880 is a full-featured removable dock for the MDT880 rugged tablet. Depending on the configuration, it can provide dual RS232 and RS485 with GPIO, dual serial with camera-hub connection, three USB OTG ports or a serial plus camera-hub configuration.

This flexibility makes it an excellent docking platform for professional vehicle, control and service installations.

**Compatible with:** Topicon MDT880
