- Air pressure sensor module
- MDT880 expansion module
- Pressure data monitoring
- Industrial field applications

The MOD-PRE-01 is an air pressure sensor module for the MDT880. It extends the tablet for applications where pressure-related data has to be monitored or recorded.

The module is suitable for specialized industrial and field applications that require an integrated pressure-sensing solution.

Compatible with: Topicon MDT880, Topicon MDT865, Topicon MDT1065, Topicon MDT1080
