Fully working, manufacturer recertified genuine device.
1 year warranty

Whether you're right- or left-handed, use claw, palm, or fingertip grip, this incredible mouse enables you to enjoy swiftness even during the most intense of gaming sessions

Now with an all-new true 5,000 DPI optical sensor, you get greater sensitivity and responsiveness to enhance your gaming performance

The in-mould rubberized grips along the sides of your Razer Abyssus V2 have been specially textured to ensure that you can execute your lift-offs and fast swipes with deadly precision

The dedicated DPI cycling button allows you to quickly toggle between five different customizable DPI stages anytime

With three colors to choose from, you can customize how you want to illuminate the Razer logo and scroll wheel. Whether it's blue, cyan, green, you have the freedom to experiment
